Professional Summary

Strategic Lead Product Designer with 15+ years of experience driving digital transformation across insurance and retail. Strong background in customer-led product strategy, end-to-end digital product design, information architecture, research, experimentation, and high-fidelity prototyping. Proven ability to translate complex problems into scalable digital experiences and measurable improvements in engagement, conversion, sales, and operational efficiency.

Brings commercially aware approach to digital product delivery across web, mobile, and service journeys. Experienced in agile, multidisciplinary environments, with a track record of influencing stakeholders, facilitating alignment, lifting design capability, and using customer evidence and data to improve experiences over time.

Core Qualifications

- › **Product strategy and end-to-end digital product design.**
- › **Customer experience strategy and design across web, mobile, and service journeys.**
- › **Information architecture, journey mapping, wireframing, and prototyping.**
- › **Human-centred design, qualitative research, quantitative research, and usability testing.**
- › **A/B testing, experimentation, analytics, KPI tracking, and design optimisation.**
- › **Workshop facilitation, stakeholder engagement, and cross-functional collaboration.**
- › **Design systems, multi-brand adaptation, and tone-of-voice alignment.**
- › **Agile delivery, design leadership, capability uplift, and strategic communication.**
- › **Emerging technology, AI-enabled experiences, and data-driven design decisions.**

Professional Experience

Lead Product Designer // Zurich Cover-More // 2022–PRESENT

- ▶ Spearheaded UX/UI design for a native leisure mobile app, driving a 22% increase in user engagement through the design of an AI-powered itinerary planner for leisure travellers.
- ▶ Defined UX/UI direction for end-to-end digital products, collaborating closely with Product and Engineering from discovery through release to accelerate time to market.
- ▶ Led customer-centred design across complex travel-insurance journeys, translating business, customer, and technical requirements into clear flows, prototypes, and production-ready experiences.
- ▶ Secured executive buy-in for innovative digital solutions by facilitating workshops and communicating complex concepts through clear user flows, sketches, prototypes, and strategic narratives.
- ▶ Validated design decisions and optimised customer experiences, achieving a 16% uplift in cross-platform conversions through qualitative research, analytics, and KPI tracking.
- ▶ Contributed to the strategic consolidation of Freely and Cover-More mobile app experiences onto a shared React Native technology stack while preserving distinct brand expressions.
- ▶ Developed a journey-led product-design framework to support reusable patterns, feature configuration by brand, incremental migration, measurement, and design governance.
- ▶ Partnered with Product, Engineering, Analytics, Brand, and other stakeholders to identify scalable opportunities across customer journeys, design systems, and platform capabilities.

Lead Product Designer // PML // 2011–2022

- ▶ Directed end-to-end website redesigns across multiple brands and business units, lifting online sales by 32% through customer journey mapping and information architecture optimisation.
- ▶ Established an insight-to-action user research practice, reducing bounce rates by 24% through contextual inquiry, card sorting, and usability testing.
- ▶ Optimised digital journeys and de-risked design decisions, boosting conversion rates by 21% by embedding A/B testing and experimentation into the design toolkit.
- ▶ Aligned digital design strategies with business and marketing objectives, achieving a 93% on-time delivery rate by adapting design systems and tone of voice for diverse audiences.

Digital Manager // PACIFIC BRANDS // 2007–2011

- ▶ Enhanced user experiences across major consumer web properties and in-store digital touch points, increasing retail digital engagement by 26% through a customer-led design approach.
- ▶ Accelerated user acquisition across multiple online channels by 17% through behavioural analysis, journey optimisation, and quantitative A/B testing.
- ▶ Streamlined interaction design production and supported a scalable CMS migration, decreasing platform downtime by 14% through comprehensive IA deliverables including sitemaps and page flows.

Education

RMIT 2025

CX Strategy and Design

CHARLES STURT UNIVERSITY 2011-2014

Master of Information Studies (Information Architecture)

NIELSEN NORMAN GROUP

Visual Design Principles for UX, Mobile User Experience, Wireframing and Prototyping, Agile Development and User Experience, Information Architecture, Persuasive Design

DESIGN CENTRE ENMORE

Diploma in Design
